Intern

Python-Django

## PROJECTS

---

### **Project Name: Talent Expo System**

**Role:** Developer

**Team Size:** 1

**Project Duration:** 9 Month

#### **Project Detail**

'Talent Expo System' a dynamic platform using Python Django and MySQL database, enabling users to upload diverse video content similar to Instagram reels. Engineered a user-friendly interface for seamless video uploads, leveraging Django's framework capabilities to manage and display various video formats. Implemented backend functionalities for efficient storage and retrieval of multimedia content, fostering an engaging user experience within a video-centric environment."

### **Project Name: DreamWed**

**Role:** Developer

**Team Size:** 1

**Project Duration:** 8 Month

#### **Project Detail**

'Dreamwed' a matrimonial website using Python Django framework with SQLite database. Designed and implemented user authentication, profile management, and matching algorithms to facilitate user connections and interactions. Leveraged Django's features to create a robust and secure platform for users to find compatible partners within the matrimonial space."
